

Table 4: TSCA Framework for Regulating PCBs -- Summary

TSCA §6(e) and regulations at 40CFR761 outline an elaborate system for allowable PCB uses / activities, and the conditions associated with use, clean-up, and disposal for each activity.

TSCA regulations fall into the following categories:

Allowable USES / ACTIVITIES	DISPOSAL / STORAGE	SPILL CLEANUP POLICY	RECORDKEEPING
<i>Criteria for compliance:</i> All PCB uses or activities are banned UNLESS they fit into a specifically listed category	<i>Criteria for compliance:</i> Date Purpose Pollutant form Intent of storage	<i>Criteria for compliance:</i> Location of spill Quantity spilled Concentration released Date spilled (reporting, disposal, and pre-cleanup requirements are consistent with requirements in other statutes)	<i>Criteria for compliance:</i> What is used or stored
